

NBN Extreme 100 FTTN Plan 1000GB

Critical Information Summary

INFORMATION ABOUT THE SERVICE

SERVICE DESCRIPTION

The Qured NBN Extreme 100 FTTN 1000GB plan is an internet service provided over the National Broadband Network (NBN) and is available in NBN enabled areas. NBN and NBN Co, and Powered by the NBN are trademarks of NBN Co Limited and are used under licence.

MINIMUM CONTRACT TERM

No lock in contract.

Key Information

The Qured NBN Extreme 100 FTTN 1000GB Plan includes 1000GB of data.

Interface speeds 100/40* Mbps. Your data allowance includes uploads and downloads. Any unused data allowance expires monthly. If you use all of your included data within a billing cycle, the speed will be limited to 256kbps until the next billing cycle commences. Typical evening speeds of between 60-100 Mbps.

*Interface speeds refer to the speed to the fibre technology installed at the customer's premises. They are not necessarily equivalent to the download/upload speeds you will achieve in practice.

Actual download and upload speeds will be affected by many external factors which include the number of end-users using the service at the same time, the hardware, the software and software configuration, the connection method within the premises and the type/source of content being downloaded.

STANDARD INSTALLATION REQUIREMENTS

As this is a BYO modem service NBN Co activates your service onto an existing copper pair in your premises. If you are located in a complex, the service may need to be jumpered to your premises. Where the NBN service has been activated on an existing telephone line all you need to do is plug in your modem and insert the authentication username and password provided by Qured. A 240 volt power supply is required and you must ensure such a power supply is available. In the event of a power outage, your services will not work unless you maintain a back-up battery. If you take up an NBN service, you will not be able to move back to a copper service. Should you wish to have your modem router installed in a different location Qured has technicians available in your area and are charged out at our standard fee for service rates for your region, to data cable your premises internally call us 1300 841 127 for a free cabling quote.

INFORMATION ABOUT PRICING
